

## Transition Investigation

One of the areas in need of greatest understanding and growth, as noted on the SAT data reports, is Transitions. There were over 6 questions that pertained to Transitions, but the number of you who mastered that was incredibly low. As a result, we will be spending the next week and a half focusing on these transitions.

Your Task:

1. Choose one of the transition words below
2. Go to the Google Slides link on the website under Week 4 **for your class**.
3. Go to the slide with your name on it.
4. On that slide, you must include the following:
  - a. The transition word
  - b. The specific definition of the word
  - c. The word in a sentence, connecting ideas together. You may need to place it in a paragraph to show appropriate transition of ideas.
  - d. Antonyms
  - e. Synonyms, but explanations of how this word is **different** from its synonyms.
    - i. Ex: However and On the other hand are both contrasting transitions. How are they different/how do they mean different things?

You should cite your sources in the "notes" section of the Google Slide; you may need to reformat your slides so that everything fits appropriately.

Due: Sunday at @ 11:59pm

### Transitions

Moreover	Conversely
Likewise	Otherwise
Furthermore	However
Additionally	Nevertheless
Comparatively	Notwithstanding
Although	Regardless
Instead	In fact
Whereas	Especially
Despite	Therefore
Thereupon	Forthwith
Henceforth	Hence
Altogether	Accordingly
Ultimately	In essence
Eventually	Meanwhile
Albeit	Besides
Even though	In contrast
